

## Outlining the effects of GM Clean Air Plan and GM Minimum Licensing Standards on licensed vehicles – Bury

Average/Most Common Vehicle in Each District (incl. Age)				
District	Private Hire Vehicle		Hackney Carriage	
	Make/Model	Year	Make/Model	Year
Bury	Skoda Octavia	2012	Peugeot Expert	2006

### Scenario One – Bury

Silver diesel 2012 Skoda Octavia, licensed as a Private Hire Vehicle by Bury Council.

#### Clean Air Zone

As the vehicle has a Euro V Diesel engine, it would not comply with the proposed Clean Air Zone due for introduction in Spring 2022 and would therefore be charged £7.50 each day it was used. A discounted charge of 5 out of 7 days per week for vehicles licensed by Greater Manchester local authorities and also used as a private car is proposed.

#### Minimum Licensing Standards

As the vehicle was registered in 2012 and will be over 10 years old as MLS come into effect, it would not comply with the proposed Minimum Licensing Standards and therefore could not be relicensed after April 2023. An MLS compliant, white replacement vehicle would need to be obtained.

#### Financial Support

Under the Clean Air Zone programme, subject to the award of government funding, it is proposed that financial support may be available to assist in obtaining a replacement compliant vehicle, including either:

- A £1,000 grant or vehicle finance contribution towards a replacement compliant petrol or diesel vehicle is available;
- A £2,000 grant or vehicle finance contribution towards replacement to a hybrid or plug-in hybrid; or
- A £2,500 running costs grant for replacement with a zero emissions capable vehicle.

### Scenario Two – Bury

Black 2006 non-wheelchair accessible Peugeot Expert, licensed as a Hackney Cab with Bury Council.

#### Clean Air Zone

As the vehicle has a Euro IV and therefore non-compliant engine, it would not comply with the proposed Clean Air Zone due for introduction in Spring 2022, when it would be charged £7.50 each day it was used in GM.

#### Minimum Licensing Standards

As the vehicle is more than 10 years old it will not meet the age standards under MLS and would not be re-licensed after April 2023. A black, age and emissions compliant and wheelchair accessible vehicle must be obtained.

#### Financial Support

Under the Clean Air Zone programme, subject to the award of government funding, it is proposed that financial support is available to assist in obtaining a replacement compliant vehicle, including either:

- £10,000 per vehicle for a running costs grant or a contribution for vehicle finance, for a replacement zero emissions capable vehicle.

Further UK Government funding may also be available including;

- UK government grant available of up to £7,500 for purchasing a new zero emissions capable vehicle, on top of the £10,000 grant
- UK Government grant of up to £3,000 for new plug-in vehicles.
